The story :

**October 1983** SAFARI PHOTOS a **ZX81** listing published in the french magazine **HEBDOGICIEL**

March 1987 adapt a **MSX 1** version to my SONY HB700 in **SCREEN 1** mode

March 2022 a remake for a **MSX 2** version in **SCREEN 8** mode for **MSXdev 2022** contest

This game is **for young children** to help them discover the keys of a computer keyboard and reflect on the different actions to be taken to reach the next stage

The instructions for use are included in the game in several languages and the finale presents all the animals encountered followed by the chosen language

The language used is the standard **MSX 2** basic with some calls to Bios routines

This game has no sprites and just uses the basic **COPY** functions

The **SCC ROM** is a **DSK2ROM** and speed up image loading times compared to the floppy version
